The Cold Steel Bird & Game is a must-have lightweight knife that's the perfect option for when weight is truly a factor. It's simple, full tang construction belies a multitude of design nuances that will soon become apparent to any hunter, survivalist or outdoorsman. Simply put, once this knife is in your hand - you'll love it! Inspired by our much-loved Bird & Trout Knife, and taking design-cues from our Spike series, the Bird & Game is designed for small game use, but is more than capable of processing large game in a pinch. The integral finger ring (coupled with the textured polymer handle scales) allows the wielder to keep a secure grip on the blade, and even let it hang from a finger while working on particularly intricate or delicate tasks. The Bird & Game's razor sharp Japanese AUS8A blade has been expertly heat treated for durability, while still being a breeze to re-sharpen in the field. Weighing in at a meager 1.4 oz., the Bird & Game is an inexpensive, super lightweight hunting tool that can be stowed in a bag or pack, or even hung from a chain around your neck.
