Sjambok made by Cold Steel. In Africa, the Sjambok (Sham-Bawk) is a cattle prod, whip, riding crop and an effective means of self-protection, whether from venomous snakes, or from varmints of the two-legged variety! Unlike most western style whips which require a rolling "crack" to function, the semi-rigid Sjambok is swung like a rod or stick. The weight, speed and flexibility of the Sjambok's lash does all the work, and little skill or training is required to wield it effectively. Our synthetic polymer version of the classic Sjambok features a thick injection molded lash, and is equipped with a soft comfortable Kray-Ex handle that's designed to resemble braided leather. Since the Sjambok is made entirely from super-tough polymers, it's incredibly durable and able to withstand weather conditions which would cause a traditional leather whip to break, crack or mildew.

Product parameters:

- Weight: 0,38 kg
- Total length: 107 cm
- Handle length: 26 cm

Cold Steel is a world known maker of knives, swords and other edged weapons and tools, all products are made of best available materials. Company was founded in 1980 by company president, Lynn C. Thompson. The company's products include fixed blade knives, folding knives, swords, machetes, tomahawks, kukris, blowguns, walking sticks, and other martial arts-related items.
