If you're in the Military or Law Enforcement; if you ride horses or motorcycles; live on a ranch or a farm - or if the encroaching threats of the urban jungle are simply getting too near for comfort - then the Peace Makers are for you! Unlike many fixed blade knives the Peace Makers can be carried very discreetly. Clipped to the top of your boot and covered by your pant leg they're rendered virtually invisible. Boot carry is incredibly comfortable (as the boot top carries the weight and suspends the knife so it doesn't rub, gouge, or irritate your body), furthermore, your knife is always easily accessible when you need it.

Astoundingly light and thin - the largest model, with it's 5 1/2" blade weighs a paltry 4.7 ounces and measures less than 1/2 inch at its thickest point! That's substantially thinner than many of the alleged "extreme duty" tactical knives available today!

The Peace Maker's "Scandi" ground blade bevel makes them very easy to resharpen, while the unique compound ground clip point -provides a very stiff, distal tapered point capable of piercing thick targets without compromising precious cutting power.

The Peace Makers offer a versatile spectrum of uses - utility, hunting, fishing, and self-defence - so it's fitting that they also have a versatile grip.

They feature a thin rectangular handle with subtle contouring and pronounced palm swell. A double quillon guard protects your precious fingers, while a thumb trough in the butt further enhances the knife's versatility by facilitating a comfortable and robust reverse grip.

It's expertly designed handles are deeply textured with a course-stippling pattern inspired by Robbie Barkman's famous Glock grip reductions which provide the leverage you need to take full advantage of it's astounding cutting and piercing power!

Our ambidextrous Secure-Ex™ sheaths are cut and stab resistant and impervious to the elements. So unlike sheaths made from leather or fabric, they'll never rot, crack, mildew, or lose their shape. Additionally, they're fitted with a custom-made, stainless steel belt clip that will stay put and keep the sheath firmly attached to your boot or belt when your knife is drawn.

Product parameters:

- Total length: 21,6 cm
- Blade length: 10,2 cm
- Handle length: 11,4 cm
- Blade thickness: 2,5 mm
- Weight: 96 g
- Steel: 4116
