Awesome is the only adjective that even begins to describe our Laredo Bowie. In fact, it really has to be seen to be appreciated, since mere words just don't do it justice. It features a long, heavy blade made with O-1 high carbon blade construction, which is flat ground to produce incredible cutting power and perfect balance. And, as an added bonus, it is given an absolutely ferocious cutting edge that terminates in a dagger sharp point.

To further enhance its versatility and efficiency as a weapon, it sports a four and a half inch long sharpened clip point that helps facilitate the deadly back cut, as well as a wide variety of more conventional cuts and stabbing attacks.

To complement the Laredo's incredibly sharp blade and superb handle, we have carefully forged a unique guard and integral bolster out of a single piece of brass.

To keep your Laredo Bowie safely at your side and ready for action, we have provided Secure-Ex scabbard.

These very popular, time tested knives have been in our line for many years and are ideal for just about any mission. Made out of 0-1 High Carbon Steel, they are precision ground, heat-treated and Mar Tempered in our state of the art factory in Taiwan to rival the strength, toughness, and edge retention of our famous Japanese swords. Check out their absolute superior fit, finish and above all sharpness and then put them to work and we are sure you'll agree they are an incredible bargain.

### Product parameters:

- Blade length: 26,7 cm
- Total length: 39,8 cm
- Weight: 462 g
- Blade thickness: 8 mm
- Steel: O-1
