Cold Steel has been making push knives for over a quarter century. Over the years we have continually refined our designs, discarding some features and enhancing others. Constantly striving to produce the best push knife in the world. Our Safe Maker series represents the pinnacle of our learning, experience, testing, and development. The blades, shafts, and 'T' shaped tangs are fashioned from one solid piece of Japanese AUS8A Stainless Steel with a stone washed finish, and then subsequently vacuum heat treated and sub-zero quenched for added strength and performance. A textured Kray-Ex handle encapsulates the tang and part of the shaft for added comfort and security. Available in two sizes; each Safe Maker includes an easily concealable and sturdy Secure-Ex boot/belt sheath.
