Our Japanese kabuto and mempo are superbly constructed, beautifully detailed and a great value. Models SH2082/SH2083/SH2088 replicate the helms of the great Daimyo Takeda Shingen, Oda Nobunaga and Date Masamune respectively. Model SH2081, based on a museum piece of unknown provenance, doubles as an exquisite stand for a katana and wakizashi set. All four pieces are equipped with leather inserts allowing them to be worn. Custom designed wooden display stands are included.

Have place for feather, but feather is not included.
