Product ID: D1071

Manufacturer: Suehiro

Price: 145.00 EUR

Availability: Out of stock

[See it in our store.](#)

Japanese waterstone for swords and knives sharpening. Grain: 8000, mounted in wooden stand, made in Japan. Water stones need water to work. Soak the stones in water for 15 minutes before use. During sharpening process, keep splashing water on the working surface. Never use oil on water stone. Worn stones should be flattened before use. Sharpening stone that is not absolutely flat will not work properly. This model is supplied with a stone to flatten the surface of the main stone after use.

Product parameters:

- Dimensions: 20,4 x 7,2 x 2,1 cm
- Weight: 700 g
